

SINGLE CONTROL/DUAL CONTROL INITIATOR WITH SOFT TOKEN

As an initiator of an ACH transaction or file, you will enter the Digital Signature code generated by the DIGIPASS application. Your 4 digit PIN will not be required.

Note: For those under dual control, the Approver will not need to enter a Digital Signature code.

STEP 1

Click on the "Show" tab at the right corner to open instruction panel.

A digital signature security challenge is required to complete this transaction.

Digital signature instructions Hide ▲

To generate a digital signature using your device, follow these steps:

1. Open the app on your device
2. Select **Digital Signature** on your device
3. Scan the image with your device
Note: If you have multiple devices, you will need to select the device from the list before you will see the image
4. Review your transaction details on the device
Note: If the details do not match the values originally submitted, cancel and report to your financial institution
5. Device will display the **digital signature**, enter it below

Device nickname: iphone 12

RT number: 114915272
 Amount: 1.00
 Account: 12345678

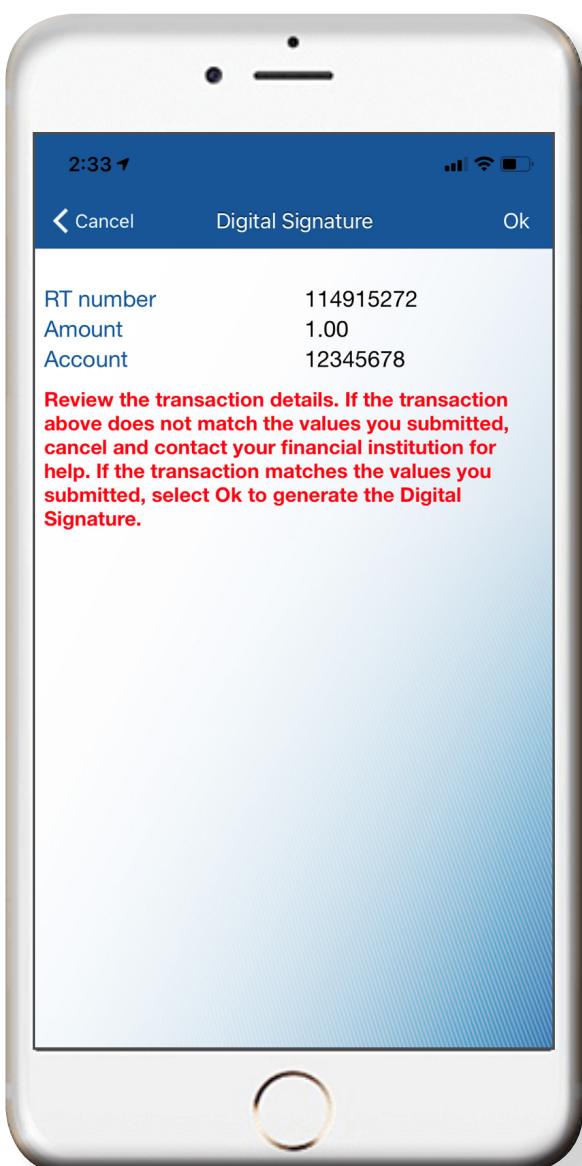

Digital signature * SHOW

* Indicates required field
